

SECURITY METAL ROOFING

Panel Profile

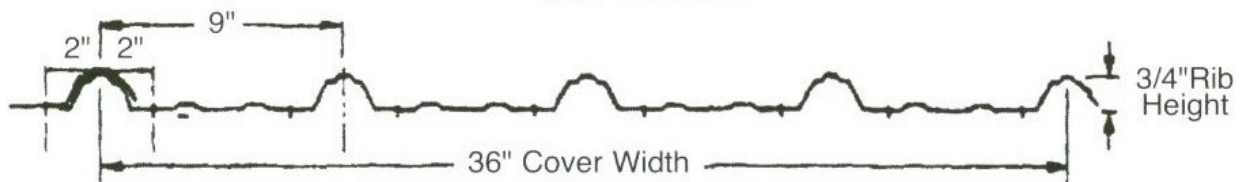

Security Metal Roofing offers two profiles an AG & R panel.

AG-Panel is a 3/4" rib on 9" centers with 36" coverage and is typically used in residential applications. Offered in both 26 & 29 gauge.

R-panel is a 1-1/4" rib on 12" centers with 36" coverage and is typically used in industrial applications. Only offered in 26 gauge.

Both AG & R panels are made with 80ksi tensile strength with a galvalume substrate and all color being AZ50 and unpainted AZ55. All painted panels come with a 40 year limited warranty (Copper Metallic 35 year) and galvalume a 20 Year.
